Dear Mr. Jones:

We have received your application for a Department of the Army permit for work in the Duwamish River at Seattle, King County, Washington.

We have assigned the file number 93-1-01315 to this project. Please cite this number in any correspondence concerning this project. Initial review indicates that your application appears complete.

We will process your application as expeditiously as possible. However, you must actively pursue gathering additional information, if requested. We will cancel your application if you are not doing so.

The Project Manager administering your application is Ms. Susan Glenn. I may contact you to discuss more specific aspects of your proposal, which may include requesting additional information. If you have any questions, please call me at (206) 764-3495.

We recommend that you do not award construction contracts until a permit decision has been made by the Corps District Engineer. Since a Department of the Army permit is necessary for this work, do not commence construction before the permit has been issued.

Sincerely,

Susan S. Glenn
Susan S. Glenn
